TEST 1 - SELECTABLE TEXT

Northstar planning memo

This page contains ordinary selectable text. A document tool should find the facts below without OCR.

The Northstar pilot is scheduled for 18 September 2026 in Brighton. The initial cohort is capped at 240 participants.

Invitations must be sent by 20 August. The launch team may expand the cohort only after the support lead confirms that the median first-response time has remained below four hours for seven consecutive days.

Mira owns invitation delivery, Jonah owns support readiness, and Elise owns payment verification. The steering group will meet again on 3 September.

KNOWN ANSWER Brighton - 18 September 2026 - 240 participants

Harbour readiness walk-through

Operations notebook - 6 October 2026

The inspection team will meet at Rowan Pier at 07:40. Bring the printed checklist, a torch, and the sealed radio case.

The access code for the equipment cage is CLOUD-5918. Read the code back to the coordinator before opening the cage.

If heavy rain begins, pause the walk-through and return to the covered loading bay. Do not move any tagged safety equipment.

HAND-OFF

Give the signed sheet to Mina before 09:00.

TEST 3 - COLUMNS

Read down, not across

The page is visually two columns. Its text objects are written to the PDF in alternating left-right order to expose weak reading-order extraction.

ACCESSIBILITY REVIEW

The release gate includes a keyboard-only review of every primary workflow.

The team must also verify visible focus, readable error messages, and usable controls at 200 percent text scaling.

Priya Nair owns escalation when a blocking accessibility defect remains after the final rehearsal.

The review is complete only when its signed checklist is attached to the release record.

OFFLINE PRIVACY CHECK

The same candidate build must complete import, search, OCR review, and answer generation while disconnected from the network.

Observers record the process tree and confirm that document content is not relayed to a cloud model.

A failure pauses release qualification even if the generated answer appears correct.

Operating-system services outside the application process tree are reported separately.

READING ORDER CHECK The two reviews are separate. Their sentences should not be merged.

TEST 4 - EXACT CLAUSE

Fictional services agreement

This clause tests exact numbers, conditions, and whether a citation supports the whole answer rather than a nearby sentence.

SECTION 8.2 - TERMINATION WITHOUT CAUSE

Either party may terminate this Agreement without cause by giving the other party at least 37 calendar days' written notice. Notice delivered only by email is effective only when the receiving party acknowledges receipt in writing. A delivery receipt generated automatically by an email system is not an acknowledgement for this purpose.

CONTROL QUESTION The agreement contains no late fee, penalty rate, or grace period.

KNOWN ANSWER 37 calendar days; email alone requires written acknowledgement.
